

# COALA BACKLIT TEXTILE

## MATERIAL DESCRIPTION

Coala Backlit Textile is a 100% polyester woven fabric one side special micro-porous polymer coating for a wide variety of indoor applications. This product gives a maximum brilliance and great luminance of the colors in transmitted light. Micro-porous opaque coating leads, by lighting on the back side, to a white dispersion of the light, so that the colors glow brilliantly. It also offers a good tear-resistance. Coala Backlit Textile complies with the OEKO-TEX® standard 100 and is fire retardant B-s1, d0.

## PRINTER & INK COMPATIBILITY

## FEATURES

- Great luminance of the colours
- Highest print quality
- No creasing colours
- No white cracking/crazing
- Water-repellent
- Dirt-repellent
- Airproof
- Trimming cold
- Fire retardant B-s1, d0
- PVC free

## PRINT SIDE

- Width < 3m: print side outside
- Width > 3m: print side inside

## CUTTING

- Cold cutting

## WEIGHT

120  
g/m<sup>2</sup>

## APPLICATIONS

- Backlit
- Light box
- Framing systems
- Ensioning systems

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
