

MATERIAL DESCRIPTION

Coala Canvas W is a 340g white matte poly-cotton canvas. A 2:1 weave structure allows the product more flexibility and more resistance against edge breakage. Enhanced white matte inkjet coating gives good results for high resolution prints. A pH neutral coating for long term image stability and color intensity.

PRINTER & INK COMPATIBILITY

WEIGHT

340
g/m²

PRODUCT STRUCTURE

- Fabric construction: mix of 65% polyester, 35% Cotton
- Thickness 470 ± 30 mic (DIN EN 20534 *)
- Grammage 340 ± 30 g/m² (ISO 536)
- Shade (fs) L* 95.8 ± 1,5 Minolta CR300
a* -0.1 ± 1.0 Minolta CR300
b* -1.0 ± 1.5 Minolta CR300
- Ph Value: 6.5 ± 1.0 (DIN 53124)

PRINTING

- The print-outs have to be completely dry before being further processed. To optimize print quality, printers should be set for highest print quality.

APPLICATIONS

- Fine art reproductions
- Interior decoration
- Framed pictures

BENEFITS

- Rapid ink drying, no bleeding even with high ink applications.
- Print-outs with high durability when using pigmented inks.
- Good resistance to cracking.
- pH neutral.
- Very good color density and greater resistance to color degradation with pigmented inks.

SHELF LIFE STORAGE AND CONDITIONS

- In original packaging at a temperature of 20°C to 60°C and at a relative humidity of 20% to 30%.
- Processing : within one year after receipt

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
